

# Better Farming for water

## Building on the learnings from ASSAP

# Supporting Implementation

**FARMING**  
*for* **WATER**  
Water European Innovation Partnership - AGRI

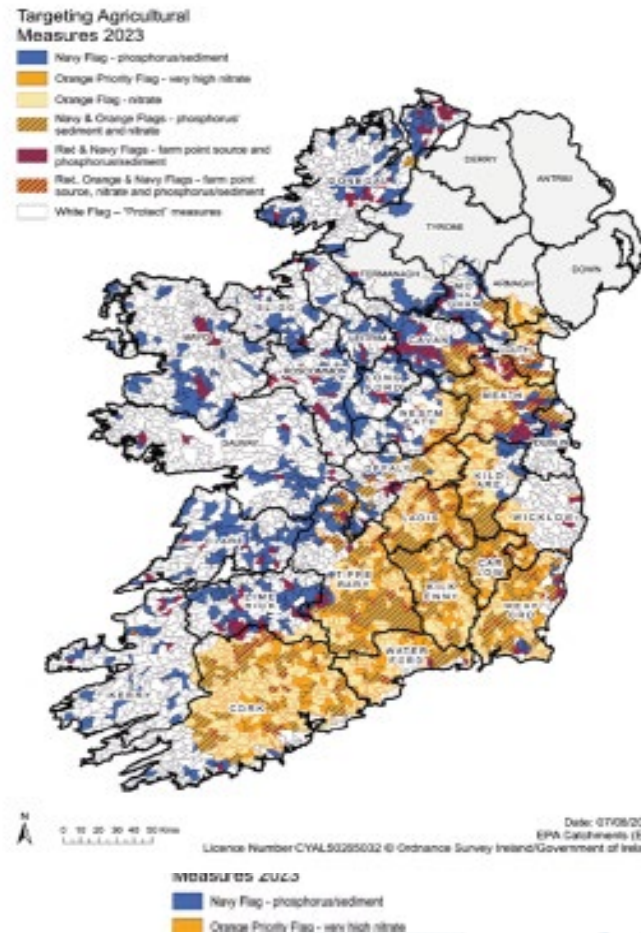

# Local awareness and targeted action

## Water quality in my local river

Open the River Water Quality layer on <https://gis.epa.ie/EPAMaps/Water> and identify the water quality in the river(s) associated with your farm (See sample map below sourced from this website).
