## Lean Programme to improve work efficiency

Lean management can be used to drive continuous improvement, reducing costs and maximising efficiency. Improvements were achieved by mapping of areas, training of staff, implementing programme, monitoring progress and addressing areas for improvement.

## BENEFITS

Labour: 1 hour per day per person

**€10,875** per year

No longer selling weaners due to poor return: Reduced slurry and labour costs

**€10,980** per year

Additional space: 348 finishers at 105kg

**€36,540** per year

Dashboard system documenting production data: Excel system on office computer to reduce labour

**€6,500** per year

Plus, other improvements

Total cost savings
Total extra output

**€30,755 €36,540**per year
