Study title: Using Nutrient Management Plans to deliver soil fertility advice under Grass10

Student: Amy Connolly

Supervisors: Anne Markey – UCD  
Pat Murphy – Teagasc

Office location: Moorepark Advisory Office

# Study Objectives

1. To identify farmers' and advisors' attitudes to NMP to date
2. To determine farmers' and advisors' opinions on current outputs or communications of NMP online
3. To identify the impediments to the use of NMP online for advisors and farmers
4. To determine future output requirements from farmers and advisors
5. To determine what 'back ups' advisors require to make nutrient management planning easier
