Project Ireland
2040

ECCO

- Interreg Project Operational to March 2022
- 11 Project Partners
- Total EU wide Budget: €5.4m
- Other Partners based in:
 - France
 - Germany
 - Wales
 - The Netherlands
 - Belgium
- 44 Associated Partners (7 from Ireland)

ECCO

- ECCO Budget: Total: €5.4m
- 60% INTERREG Funded
- SKPD Match Funding Secured from:
- Department of Rural & Community Development
- Department of Climate Action
- Kerry Group
- FEXCO

SKDP Project Steering Group:

Board Approved Steering Group

(Industry/Farming)

(Department of Comm., Climate Action & Env.)

ECCO: Reasons for Project

- Lack of/No Real Community Led Renewable Energy Projects in Ireland – Develop?
- Many existing small community energy co-ops in EU MS– Scalability –transfer knowledge
- Opportunities – Economic & Social (rural regions) ; Environmental

ECCO: Community Benefits

- Farm additional income
- Return on investment for shareholders
- Virtual Power Plant – shareholders use the energy produced?
- Community/citizen rather than conglomerate ownership
- Local business/employers offset carbon footprint – more sustainable local employment?
- Local sense of achievement?

ECCO - Goals

- Develop a Community Owned Energy Co-op in South Kerry
- Key Principle - Open/Accessible to all
- Shovel Ready Project
- Transferrable Model – blueprint to other communities?
- Additional Potential Projects

ECCO

Challenges and costs:

- Feasibility Study
- Grid Connection
 - - Availability of suitable grid access points
 - - Securing grid connection
 - site proximity to connection point
- Planning
 - - resistance to renewable energy projects
- Securing viable RESS price
- Community Engagement
 - - Difficulty in bringing proposals far enough to present to communities
- Design of ownership structure
- Initial community seed capital

ECCO

Wider Challenges and Opportunities:

- Engaging Openly and Fully with Communities
- Lobbying at National and EU Level
- Developing Policy Proposals
- Educating/Showcasing Best Practices

Thank you
