

Teagasc Organic Webinar
24th November 2021
*‘Are you considering converting
to organic farming?’*

**My Story : Jim Hogan, Rathrush, Rathoe
Co Carlow**

Introduction

- Rathrush Farm located in Rathoe Co. Carlow
- Beef, Tillage, Sheep and Forestry
- Started the conversion to Organic Farming in October 2020

Overview

- Why Organics
- Changes made
- One year on
- Future plans

Why Organics?

Hereford Cattle grazing Fodder Rape

Didn't use much
fertilizer

Pat Lalor is
over 20
years
farming
organic

“If you look after the soil, the soil will look after the crop”

Jimmy & Eddie Mulhall of Coolanowle Organic Farm

Flahavans Organic Oats

Ross & Amy
Jackson

Organic Trial

Spring Oat yielding
2 tons p/ac

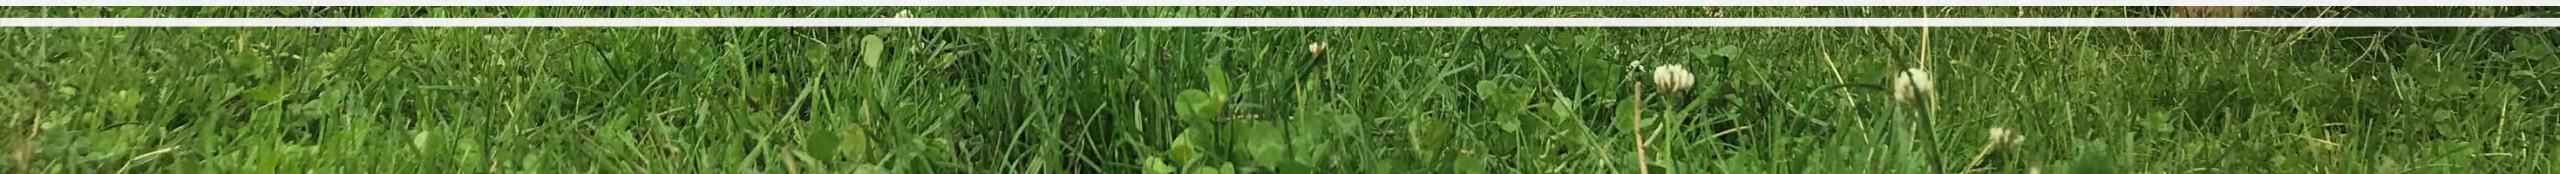

Planning

- Picked a conversion date
- Sowed multispecies
- Sowed red clover
- Sowed winter oats
- Brought some ewes

Beef Enterprise

Feed

Health Plan

Sheep Enterprise

Ewe Breed

Sheep flock

Lambing

Tillage Enterprise

Ploughed field ready for sowing

Sowing winter wheat

Winter oats

Winter oats end May

Same crop two weeks later

Arable Silage

Arable silage pea triticale mix

Harvesting arable silage

How am I getting on one year later?

- Cannot have same crop in organic/non-organic land.
- Wet area in non-organic land
- Had to mark off shed for spray press in yard.
- I marked off house and garden too.
- Oats yielded 1.4 tons to 2.7 tons p/ac
- Happy with silage/grazing ground
- Happy with arable silage
- Paperwork
- Inspections

The Future

- That our farm would be a better farm when we pass it on to the next generation.

A photograph of a herd of brown and white cows grazing in a lush green field. Large, leafy trees are in the background, and the sky is overcast. The image is used as a background for the slide.

Advice

- Look at the videos on organics
- Talk to teagasc
- Talk to the organic bodies
- Go to farm walks
- Try something out for yourself
- Plan
- Thank you
