- Unit 7, Yawl Business Park, Millennium Court, Foxhole, Youghal, Co. Cork.

We started working with  
Irish Organic Hemp  
Farmers in early 2017

- Our aim was to provide the Irish consumer with the highest quality CBD Oils, planted, grown, harvested, processed and packaged in Ireland.

**REMEDY**  
**HEALTH** 

In December 2019 we  
opened a processing  
facility in Youghal Co.  
Cork.

There are six zones in the clean room. In zone 2 & 3 we mill the seed and store oil. In zone 4 & 5 we produce balms, oils & creams

In zone 6 we grind the meal cake and produce **REMEDY**  
our powders. **HEALTH**

Our main raw  
material is  
Hemp Seed

From the seed we get our  
oils, sediment and powder

# REMEDY HEALTH

The seed is stored in our facility in bags that weigh a tonne and samples are sent for full analytic testing for:

- Terpenes analysis
- Cannabinoid Profile analysis
- Pesticides residue
- Heavy Metals
- Aflatoxins/Ochratoxins analysis
- Trace Minerals analysis
- Microbiological analysis

# REMEDY HEALTH

When the results for the seed come back, we begin the milling process.

- The seed enters the machine.
- The press heads remove the oil and sediment.
- Meal cake is created in the form of a nut which we further break down for the powders.

Our oils come in a range of strengths from 400mg to 6000mg and our balms begin at 600mg up to 6000mg. Our oils also come in three flavours, Natural, Mango and Blackcurrant

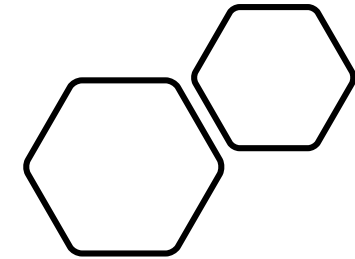

# REMEDY HEALTH

- Our powders range in strength from 9000mg to 30000mg and come in an array of flavours – Natural, Maca & Cacao, Spirulina & Wheatgrass, & Turmeric & Black Pepper

We also have a range of massage oils. Our latest to the range is our Builders Mate Massage Oil.

**REMEDY**  
**HEALTH** 

We also have introduced a range for pets which include three tinctures in strengths 400mg, 800mg & 1000mg. A 500mg massage oil and 600mg balm.

This year we  
took seed  
from ten  
farmers while  
also growing  
seed  
ourselves.

In 2020 we bought land beside our processing facility. Our plans for the future are to build a fully automated manufacturing facility for processing hemp to its raw material state, and for finished products.
